1. What did you like best about your TA's teaching style?

I really liked Sean's laidback, approachable style. He was GREAT at diving into some aspects of the larger class discussions to help clarify concepts or help us to think about ideas in a different way.

2. What changes would you recommend to improve your TA's teaching style?

To spark more discussion, I wouldn't necessarily lead with "Does anyone have anything they want to talk about from the discussion?" or start with that and then have a topic statement and ask what people think.

3. What changes would you recommend to improve the overall quality of the case discussions?

I really liked the cases. No improvement necessary.
